Laminate Collection

2025-26

Design beyond direction

In a world saturated with fleeting trends, a quiet shift is happening—a return to interiors that feel, not follow. Spaces are no longer dictated by what’s “in,” but shaped by memory, material, and meaning.

It’s not about what’s next—it’s about what endures. This collection began with a belief that design should resonate, not just impress. Shaped by restraint and elevated through detail, it’s a collection that ensures clarity, coherence, and creativity finds their pace.

The materials don’t dictate. They respond. Every surface carries a quiet discipline, guided not by rules, but by the instincts and imagination of those who design with them.

We are EDL.

Headquartered in Singapore, EDL started with a mission to provide design-centric and quality-driven materials for interior designers and architects.

More than a decade after, the company has expanded to multiple countries with hundreds of employees across the continent, and to include expanding material categories.

We strive to constantly challenge and expand beyond the boundaries of our field. With laminates at our centre, we built an ecosystem of surfacing solutions which complement and support one another.

Material Gallery

Step inside our material galleries into something quieter, more deliberate. Here, materials aren’t just displayed; they’re revealed. Full sheet laminates, wall panels, countertops, and design accessories unfold in curated zones, inviting you to pause, touch, and take the guesswork out of your selection.

Our spaces are designed for exploration, not instruction. Whether it’s a wall, a worktop or a feeling you’re chasing, you can move through textures and tones. With full sheet laminates, you can explore endless design possibilities. Speak with our product specialists for inspiration. It’s a place where you can eliminate surprises, and leave with ideas—and confidence—inspired by what you see and feel.

The same spirit, across borders

From Malaysia to Thailand, our regional galleries echo the same philosophy: spaces that invite curiosity, foster intention, and give form to vision.

Wherever you find us, we’re here to help you design by feel—not by formula.

SOLID

Solid colours offer clarity—a stillness that lets everything else speak. They strip away distraction, creating space for mood, intention, and contrast to emerge.

In this new collection, we have deepened the spectrum—working closely with manufacturers to craft hues of rare intensity and quiet conviction.

Fine Matt	Nuance	Smart	10ft
An ultra fine surface—a functional finish that does not compromise on texture.	A pastel coloured collection that feels like velvet. Made in Japan.	Refined and matt, elegant and robust to the touch. Made in Europe.	

Textured	PianoGloss®
A standard, functional finish with a warm, organic touch.	A legacy collection, PianoGloss is a high gloss reflective finish with optimum gloss to stability ratio, providing the perfect balance of form and function.

WOOD

Wood grounds a space. It brings warmth, texture, and a natural rhythm that connects us to something familiar by softening, strengthening, or simply holding a room together.

To honour this quiet strength, we pioneered the 10ft format to give designers more freedom and fewer interruptions. Fewer join lines mean cleaner finishes, less waste, and no need for complex detailing in taller spaces.

1

2

3

4

Flow Characterised by its waterfall-like cascading finish. Made in Europe.	Larix A handsome sensorial finish similar to a sandblasted texture. Made in Europe.	Legno Modern and understated, Legno presents a matt and powdery finish, layered with a debossed texture.
Smart Refined and matt, elegant and robust to the touch. Made in Europe.	Natural Matt A finish which pays homage to the irregularities of wood. Natural tones are paired with deep textures, making it authentic to touch.	Super Matt Rough to the touch, Super Matt is a dry, tactile surface that features zero reflection.
Alevé Named for the ancient Alevé forest, the surface is beautiful and complex; and speaks to the inimitable tactility of wood. Made in Europe.	Aleppo An ultra-fine embossed texture which creates a matt look and a soft, subtle feel.

APTICO

Next-Generation Surface Technology

Made in Europe

Application

Suited for horizontal and vertical applications, and for both residential and commercial projects, it is an ideal fit for a vast array of interior endeavours.

Size

2800 x 1300 x 1.0mm 9.2ft

Key Features

Anti-fingerprint

Thermal repair of
micro-abrasions

Extremely matt
surface

Scratch resistant

Soft texture

Aptico is an innovative product for interior design. Thanks to our next generation patented surface technology, it delivers sophisticated aesthetics for discerning demands.

The surface has low light reflectivity due to an extremely matt finish, a warm soft touch, and anti-fingerprint properties. Superficial micro-scratches can also be removed through thermal repair. This unique protective technology accords the surface a high degree of resistance to scratches and abrasion.

Beautiful spaces start with beautiful materials. Key to our ethos is an understanding of the emotional connection between designer and creation. Guided by our dedication to supporting their creative journey, we craft explorative and highly tactile materials that look good – and feel even better.
