WALLS THAT MAKE A STATEMENT

EN |

Walls that make a statement

The new collection of wall hooks turns walls into balanced canvases. Each piece, inspired by the Japanese "Ma" (間) concept, has been designed to give meaning to the space and connect with the decorative elements that fill it. More than mere accessories, they are architectural statements. Shapes that give order. Visual anchor points that subtly converse with their surroundings, placing the emphasis on the empty space between them.

Paredes con intención

La nueva colección de colgadores de pared convierte las paredes en lienzos en equilibrio. Cada pieza, inspirada en la filosofía japonesa "Ma" (間), ha sido diseñada para dar sentido al espacio y conectar con los elementos decorativos que la rodean. Más que accesorios, son gestos arquitectónicos. Formas que ordenan. Puntos de anclaje visual que dialogan con el entorno desde la sutileza, permitiendo que el espacio vacío entre ellos se convierta en protagonista.

Parets amb intenció

La nova col·lecció de penjadors de paret converteix les parets en llenços en equilibri. Cada peça, inspirada en el concepte japonès "Ma" (間), ha estat dissenyada per donar sentit a l'espai i connectar amb els elements decoratius que l'envolten. Més que accessoris, són gests arquitectònics. Formes que ordenen. Punts d'ancoratge visual que dialoguen amb l'entorn des de la subtilesa i permeten que el buit entre ells esdevingui protagonista.

FLOORS THAT CREATE AN ATMOSPHERE

EN |

Floors that create an atmosphere

Subtle, functional and essential, the new collection of door stoppers are inspired by the Japanese concept "Ma" (間) where the negative space is as important as the objects that define it. Each door stopper in the new collection marks a limit that provides elegant protection, a harmonious point that stops without interrupting. Its discreet and carefully thought-out design allows the space to flow naturally.

ES |

Suelos que dan sentido al entorno

Sutiles, funcionales e imprescindibles, la nueva colección de topes de puerta se inspiran en la filosofía japonesa "Ma" (間) en la que el espacio vacío es tan importante como los objetos que lo definen. Cada tope de la nueva colección es un límite que protege con elegancia, un punto armónico que detiene sin interrumpir. Su diseño discreto y cuidadosamente pensado permite que el espacio fluya de forma natural.

Cada topall de la nova col·lecció és un límit que protegeix amb elegància, un punt harmònic que atura sense interrompre. El seu disseny discret i acuradament pensat permet que l'espai flueixi de forma natural.

EN |

An interior design tells a story in which our door stoppers are a silent presence that flows from one room to another, visually connecting each space. Placed correctly, they are the point that sets a steady tempo. They help the room keep its flow, both as a physical space and aesthetically, protecting the essential without altering the look. Their design seeks to take floors to new dimensions of beauty.

ES |

Los topes de puerta se integran en la narrativa de cada interiorismo con una presencia silenciosa que acompaña y conecta visualmente el paso de una estancia a otra. Colocados en el lugar preciso, son el punto que marca el ritmo sin romperlo. Contribuyen a mantener la fluidez visual y física del espacio, protegiendo lo esencial sin alterar la estética. Su diseño busca transformar los suelos en nuevas dimensiones de belleza.
